Fax: (+44) 01675 462090  
E-Mail: sales@adaptaflex.co.uk

**To: All Customers**  
**Date: Friday, 10 February 2006**

**Subject: Adaptaflex compliance with the requirements of EU directive 2002/95/EC on the restriction of the use of certain hazardous substances (RoHS) in electrical and electronic equipment**

This directive forms part of the EU environmental legislation on waste management and is aligned with the waste electrical and electronic equipment (WEEE) directive.

**Adaptaflex Limited Are pleased the be able to confirm compliance with this directive for all metallic and non-metallic flexible conduit systems under Article 4**

Specifically no lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE) are used in the manufacture of metallic and non-metallic flexible conduit systems.

Adaptaflex Ltd. Will ensure and maintain contiuous compliance with this directive through close collaboration will all material suppliers and best practice in the design of new products.

Should you require any specific details to assist you in constructing a technical file for products, please contact us stating which specific product range is required and we will supply all supporting documentation.

A handwritten signature in black ink, appearing to read "M. Buck".

**Meirion Buck**
